CONTINUED RAILROAD **CONTROL CAUSES SELLING**

New York, Dec. 12.—Director-General McAdoo's recommendation that the government extend its control of operations of the railroads to five years provoked scattered selling of transportation stocks at the opening of today's market trading. High-grade rails, particularly transcontinentals, cotton carriers and eastern lines, reacted an average of a point. Industrials, coppers, motors and various specialties also yielded, but the entire list made irregular recoveries before the end of the first half-hour, shippings and oils recording material gains.

The shippings became erratic during the neon hour, Marine Preferred losing most of its gain, but soon recovering, investment and speculative rails recorded further losses with United States Steel and tobaccos led the weak specialties at 1924; -point declines.

Rails and utilities forced the list to lowest levels in the final hour. The closing was heavy.

REACTION FOLLOWS BREAK IN COTTON

New York. Dec. 12.—Yesterday's sharp break was followed by some irregularity at the opening of the cotton market today, first prices being 2 points lower to 2 points higher, with the near months relatively easy. There was some scattered southern selling, as well as further liquidation, but the offerings were readily absorbed and the market soon steaded on covering and fresh buying promoted by reports of an increased mill demand. December sold up from 27.00c to 27.25c, January from 25.65c to 25.99c and March from 24.55c to 24.81c before the end of the first hour, or about 20634 points net fligher. After selling up to 26.14c for January and 24.92c for March, or 32049 points net higher, the market reacted 156/20 points under realizing and there also was some scattered selling for southern account. These orders were by no means heavy or aggressive, however, and the market was steady during the middle of the day on the larger export figures.

NEW ORLEANS COTTON.

New Orleans, Dec. 12.—Better spot accounts from Texas caused buying of cotton around the opening today. In the first half-hour of business prices were raised 13620 points.

The increased export movement stimulated the demand for contracts, and in the trading up to noon the advance was widened to 38655 points.

Reports of decreased offerings of hedged cotton stimulated buillish sentiment. At 1 o'clock prices were 56658 points up, net.
